Dr. Harris M. Cook and Fred E. Wortham Talk Over WDAG About the College.

The weekly program of the Canyon Chamber of Commerce over WDAG at Amarillo Tuesday night was in regard to features found in the West Texas State Teachers College. Fred E. Wortham, secretary of the Chamber of Commerce was announcer, and Dr. Harris M. Cook, dean of Men, made the principal talk. Music was furnished by students.

The College Band
The band of the West Texas State Teachers College, which is known for the excellent training which its individual members receive. No man from this Buffalo band has ever tried for a place on the Long Horn Band of the University of Texas, without making it. The band has three regular practice periods each week, and every minute is used in working upon music of recognized worth.

Standing Among Universities
People sometimes ask if the West Texas State Teachers College is as good as this or that other college. This is the answer: It is. It is a member of the Southern Association of Colleges and Secondary Schools, along with S. M. U. and the University of Texas. It is a member of the Texas Association of Colleges, along with Baylor University, Simmons University, Trinity University, St. Edwards University and others. It is a member of the American Association of Teachers Colleges along with Emporia, Kansas, Cedar Falls, Iowa and many others. Its graduates have done work of distinction in colleges and universities throughout the United States.

The Summer Session
Students who enter the West Texas State Teachers College at the beginning of the winter quarter, December 30, can go straight through the summer, thus doing a full year of standard college work. This will enable them to secure valid teachers certificates, or to enter college again next September as regular sophomores. The summer faculty at the college at Canyon is fully as good as that of the regular session; in fact, most of the regular staff teach during the summer, and the visiting faculty is selected by President J. A. Hill with as much care as he chooses his teachers for the regular session.

Department of Music
The department of music of the West Texas State Teachers College is ready to help any person who wishes to appear on a program or who wishes to learn some particular selection. These special lessons may be arranged for by appointment with Mr. Wallace Clark, Miss Pauline Brigham or Mr. Herschel Coffey. The price for a special lesson is \$2.00.

People who wish to take a lesson each week, or two lessons each week in the music department may do so without being enrolled for any other subject in the college. The department has a special rate (Continued on last page)

FAST BUFFALO TEAM STARTS CAGE PRACTICE

BURTON IS HIGHLY PLEASED OVER THE PROSPECTS.

Schedule for Basketball and Football Arranged at Meeting of Coaches in Dallas.

The Buffalo basketball squad will be the tallest and probably the fastest ever put out at W. T. was the opinion expressed yesterday by Coach S. D. Burton. Big Sam expressed his pleasure in the way the team was developing and the prospects for a most successful season. The schedule is not yet completed, but from indications, the basketball fans of Canyon will have a rare treat in store when the season gets under way.

The schedule as so far developed will be as follows:
Jan. 15-16, Sul Ross at Alpine.
Jan. 18-19, Tech at Lubbock.

Feb. 8, Texas Mines at Canyon.
Feb. 12-13, A. C. C. at Canyon.

At the meeting of the T. I. A. A., five teachers colleges, Denton, Commerce, Nacogdoches, Huntsville and San Marcos withdrew from this conference, and were joined by Trinity from the Texas conference to form the Lone Star conference. The T. I. A. A. will continue with West Texas Colleges as members. D. A. Shirley was re-elected president of this conference.

Coach Burton has scheduled the following football games for next fall:

Heavy Snow on Plains Brings a Christmas Treat

EIGHT TO TWELVE INCHES BLANKET PLAINS.

Moisture of Past Week Amounts to .56 of an Inch With the Snow Continuing.

The heaviest snow in several years blankets the Plains this morning, having started Tuesday night, and continued for 48 hours. The snow measures from 8 to 12 inches deep, and has tied up traffic on the highways and delayed train service.

The weather has remained very warm, with the snow melting on the ground during the day.

The temperature has been so mild during the week that no loss of stock is anticipated unless a high cold wind and blizzard should follow.

Rain Thursday added .15 of an inch moisture, which was followed by the snow amounting to .16 of an inch Tuesday and 25 of an inch Wednesday.

As a feature of Canyon's Down Town Night, a Christmas tree will be erected on the public square and lighted, under a committee from the Rotary Club. A program of Christmas carol singing will be sponsored by the Interchurch committee. The tree will remain on the square until Christmas night.

The lights around the public square, erected by the American Legion and Chamber of Commerce, have proven very attractive. Added to the special lights and decorations in all of the business houses, Canyon presents the Christmas spirit. Practically all of the business houses have added Christmas decorations, and built attractive Christmas windows.

The committee from the Rotary Club to erect and light the Christmas tree is composed of A. H. Bryant, Earl Robbins, Oscar Gano, Dr. H. A. Brown and J. W. Klein-schmidt.

W. A. Warren, from the interchurch committee, is arranging to have the song service, and if the weather permits there may be a short program.

The annual home decoration contest of the Chamber of Commerce will not be conducted this year. However, many home owners are putting out special Christmas lights, and other decorations to add to the good will of the Christmas occasion.

Every club and organization in Canyon is cooperating to make the Down Town Night next Monday a great success.

The News is in hearty accord with the movement started last week regarding the price of gas in Canyon. We have advocated that city authorities avoid expensive litigation, such as has been undertaken by other towns, and were pleased that this seems to be the general attitude of all those interested in the new movement. No one in Canyon has the remotest idea as to what price should be charged for gas, or by other utilities. We can all guess, but guessing is a poor way to settle any argument. To ascertain the facts as to what gas would cost in Canyon and then present these facts to the railroad commission is the only hope for reducing present prices. A lot of unsubstantiated charges and counter-charges will avail nothing. The fact that Canyon is so close to the gas field was the reason the city commission waited so long to grant the franchise at the same rate as charged towns 150 miles and more away were being charged. But the people of Canyon demanded action, so the commission granted the franchise. Some who were the most critical of the city commission for not granting the franchise at the present rates are now the ones most critical because the rates are not lower. A careful investigation of the facts will not hurt anyone, and may help in lowering rates, if these are now too high.

Uncle Sam is having trouble with his finances, just the same as most of his children. It is now proposed to increase the income tax, and lower the exemptions so that about 1,700,000 more people will have to pay the income tax. That will seem unreasonable to those who have not had to pay when times were better. The ideal tax always is the one that the other fellow pays. But Uncle Sam's troubles should be a warning to those in Texas who would substitute for the present ad valorem tax, the income tax. If Texas had to rely upon the income tax now, the state would be in a much worse shape than it is at the present time with its \$5,000,000 deficit. The question of taxes is one of the most absorbing problems now confronting every nation, every state, every county, every city and every school district. The problem of how to pay the taxes is likewise the problem of every tax-payer.

Condemnation of Attorney General Allred's ouster suits against the principal oil companies by Chambers of Commerce is not a very dignified way of handling

such serious questions. The suits were filed in good faith, according to Mr. Allred, and if it is found that they were not filed in good faith he should resign his office without delay. If the laws of the state have been so flagrantly violated as the Attorney General seems to think they have been, then some one must be punished. The young attorney general is a fast thinker and quick actor. If he made a mistake, the courts will soon decide against him. There is a kinder feeling against corporations in Texas than there has been in many years, and political bluff will not work against the interests of the people of the state who are tracking the law.

A circular may have some advertising value, but not so much as the home newspaper. We do not find the lobby of the post-office strewn with copies of the News on Thursday. The paper is taken home and read by every member of the family. The merchant is lucky if fifty per cent of the circulars he mails ever reach the home. Various kinds of advertising mediums have been tried to take the place of the newspaper, including the billboard and the radio. The billboard users always come back to the newspaper. Just now the radio is having a hard time to hold its patronage as the users are beginning to question its number of listeners and the pulling power of this medium. The newspaper has always been the leading advertising medium, and will always remain so.

Politics will open in full blast right after Christmas. In fact, in some of the counties candidates are not waiting until Christmas, but are placing their announcements now. Judge Ocie Speer of Austin, is the first to announce definitely for a state office, and announces that he will run against Judge William Pierson, associate justice of the Texas Supreme Court. Other state candidates will announce early in 1932. Several county candidates are expected to make announcements the first of the year. All of this points to a hot political race in 1932. Every citizen should arm himself with a poll tax receipt in order to take a part in the battle of ballots.

Warning has been issued by the State Fire Commissioner that care should be taken to prevent fires during the holiday season. Christmas decorations are easy to set on fire, if care is not taken. There have been an unusually large number of fires in the state this fall, due largely to carelessness, and state officials hope that the holiday season will not bring an unwarranted number. Every fire adds to the cost of fire insurance in the state, therefore every policy holder is interested in seeing that the number of fires be held to a minimum.

If booze should unfortunately be returned as an issue, as the wets advocate, and the corner saloon should again become a reality,

deaths by automobile accidents would increase at such an alarming rate that booze would again be voted out for keeps. In this mechanical age, the people of the United States will not return to the open saloon, regardless of the action of congress in submitting the question for a referendum.

Canyon's schools have been running all year without the necessity of borrowing money or issuing script. This is a compliment both to the condition of the city and the spirit of the people in their willingness to make a sacrifice to keep the schools going. If you have not paid your school taxes do so at once. The public schools are the foundation of any community's progress.

The Empty Stocking crusade is another movement for Canyon which deserves the support of all citizens. Last year children in 38 homes were made happy by the toys given under the direction of the women of the City Federation. Either new or discarded toys will be acceptable, and will make glad the heart of some child on Christmas morning.

Just another week before Christmas. The stores of Canyon are well prepared to take care of your Christmas needs. Visit the stores in Canyon before you do your Christmas shopping. You will find here the things that you need for a present that will please.

WHY WINTER COOKING REQUIRES MORE GAS

Consumers who use gas for both cooking and heating realize why their bills are higher in winter than summer. They know that it takes much more gas to keep them warm during severe months than in periods of mild weather.

In cases, however, where gas is used only for cooking, consumers sometime wonder why their bills are higher than in summer.

There are several reasons, one of which is that more hot food is eaten in winter than in summer.

Water coming from the faucet in summer frequently averages around 70 degrees in temperature while in winter it may average as low as 45 degrees, or a temperature lower than that of the ice water you drink in summer.

Thus, in winter, the temperature of the water may have to be raised 167 degrees to reach the boiling point, while in summer it may be necessary to raise it only 142 degrees—or even less.

This same situation applies in more or less degree to all branches of cookery. The articles of food go into the oven or on the stove at a lower temperature than in summer, the utensils are colder and the air in and around the stove is colder—so more gas is required for cooking in winter than in summer even if the same menus are used.

The West Texas Gas Company organization works diligently throughout the year to the end that you may enjoy A REALLY GOOD GAS SERVICE, whether it be on the Fourth of July or during the bitterest wave of winter cold.

West Texas Gas Co.**IT IS NOT** the cost of the gift, but the thought that lies behind the giving that warms the cockles of the heart on Christmas morning.

Then, instead of some short-lived trinket, how much nicer to give something that will bring solace and delight for many days after the Christmas tree is gone; until the New Year is on its way.

For the cigarette smoker, man or woman, of course give Camels. A blend of choice Turkish and mild, sun-ripened Domestic tobaccos, they are kept fresh and prime by the Camel Humidor Pack, with their natural moisture unimpaired by parching or toasting.

In appropriate holiday wrapping, Camels

For the man who smokes a pipe, we suggest either a pound tin or one of those crystal glass humidors of good old PRINCE ALBERT. Here is a present that goes straight as a Christmas carol to a man's heart; P.A., the best loved pipe tobacco in the world, all dressed for the occasion in bright Christmas costume.

W. A. A. Delegates Report on Trip to Annual Convention

Mrs. Travis Shaw, and Misses Pauline Wilson and Mattie Jordan attended the annual meeting of T. A. C. C. W. which convened at Huntsville, Texas, on November 19, 30, and 21. Misses Zella Reigel and Jo Cowser joined them at Slaton.

The initial business meeting was held at Club Lake Friday morning. After luncheon the representatives went on a sight-seeing tour of Huntsville where General Sam Houston's home, the State Penitentiary, and Sam Houston State Teachers College were visited. Dr. H. F. Scott of Rice Institute was the main speaker of a formal banquet given Friday evening. His address treated the evaluation of different sports. At the final business meeting it was resolved that T. A. C. C. W. should favor a northern and southern division of A. C. A. C. W. and proposed a western division of T. A. C. C. W. which would include the Panhandle district of Texas, Oklahoma, Colorado and New Mexico.

Canyon's part on the conference program included a discussion of the "Point System of Activities," "What is W. A. A. Responsibility to G. A. A." and leadership in the discussion of the "Question Box." There were fifteen different colleges representing W. A. A. at the convention.

Through the courtesy of Miss Carrie V. Bradley, a friend of Mr. and Mrs. Travis Shaw, the representatives from Canyon and Lubbock were shown over Houston during the several hours between trains. The Democratic Convention Hall, City Auditorium, Rice Institute, Herman Park and Hospital, Museum, and Zoo were places of most interest.

Arriving in Galveston late Saturday evening, dinner was eaten at "Glados" overlooking the beach. After getting off the street car and walking up and down dark streets the wharf was identified by the tall masts of the sail boats. The interruption of the sailors' domino game secured for the group an inspection of the Gulf fire boat. The next morning was spent in an endeavor to acquire the art of jumping and riding the waves of the Gulf. In the afternoon the group was shown over the U. S. S. "Saranac," a coast guard boat, and took a twenty-five mile boat trip in the Gulf on the "Galves." The John Sealy Hospital, the Marine Hospital, Sea Wall Drive, and the Mallory Steamship Line were places of most interest that were seen just before the return over the causeway back to the mainland.

Dr. F. M. Darnall, head of the English Department of the College, spoke to the Young Married People's Bible class of the Polk Street Methodist Church last Sunday.

Dr. Darnall also spoke to the girls of Cousins Hall at their regular Wednesday evening prayer meeting hour last week. His subject was "Student Honor."

SOME LONG HAULS

It is surprising to know how wide is the territory from which large cities draw their food supplies. A few illustrations will show how the expense of transportation must greatly increase the price of farm and garden products to the ultimate consumer. White potatoes are shipped to Chicago from no less than 37 states, to Indianapolis from 33 states and to Birmingham from 31. Some are shipped as far as 2,500 miles. New York receives apples from 23 states, the longest haul being 3,150 miles; potatoes from 21 states; lettuce, cantaloupes and onions from 17, and tomatoes and peaches from 13. Chicago's apple supply comes from 25 states, cabbage from 23, onions from 20, peaches from 19, tomatoes from 17, strawberries and sweetpotatoes from 17, and cantaloupes from 14. While the long haul of early vegetables is due largely to the varying climate of different sections of the country, it seems that a system of marketing might be developed which would eliminate a considerable part of the transportation charges involved in getting these products to the consumer. It is another problem with which the country has to wrestle.

AMERICA WINS

When Booth Tarkington was visiting Naples he was present at an eruption of Vesuvius.

"You haven't anything like that in America, have you?" said an Italian friend with pride.

"No, we haven't," replied Tarkington, "but we've got Niagara Falls that would put that thing out in five minutes."

Children in Other Countries Celebrate Christmas With Strange Customs

WHILE American children celebrate Christmas with merry old Santa Claus, boys and girls in other lands celebrate the joyous season in many different and quaint ways.

In Holland Santa Claus comes to see Dutch children on Dec. 5. Dutch children don't call him Santa Claus. They call him St. Nicholas, and the day he comes St. Nicholas Day. St. Nicholas doesn't climb down chimneys. The children put their wooden shoes at the door. The saint raps, enters and scatters sacks of candy and toys all over the floor.

Swedish and Norwegian children gleefully await "Father Christmas," who drives a pack of reindeer through the streets. Father Christmas stops at every house, chooses toys from his sacks, waves at the children watching in the windows and walks in. Inside the children sing Christmas songs for him, and he puts toys under the trimmed trees.

In France Santa Claus travels with a stern, forbidding-looking companion—Father Whipper by name. This gray-bearded, cross-eyed, frowning man carries a basket of tiny birch rods on his shoulder, and follows Santa down chimneys of those houses in which wooden shoes have been placed near the chimney. Whether the child is good or bad, Santa leaves his gifts; but if they've been bad, Father Whipper leaves one of his switches.

SANTA delegates his little gnome helpers to go to Denmark, where the children put bowls of rice in the stables to feed them on their journey. The gnomes come early in the evening, leave their gifts under the Christmas tree, depart for the stable to eat, and then continue their journey. Danish children go to church on Christmas Eve, and when they return they look for the gifts the gnomes have left.

"Befana," who is Santa Claus' wife, delivers gifts to the children in Italy. So that she may know what houses to visit, the children hang wooden spoons on their windows or doors. Befana never

brings Christmas trees.

German children put their shoes by the fireplace, like the French children, and Santa Claus throws gifts down the chimney. Irish children place a lighted candle in their windows, set food on the table and leave the door ajar—symbols of welcome should the Christ Child ever return. Santa Claus visits children in Ireland, and if he's hungry he eats a little of cheese and oatcakes which they prepare for him.

Russian children used to don warm clothes and sing songs in the streets while watching for

Santa Claus. But in recent years the government forbade Santa's visits, his presents and the use of Christmas trees. Likewise it would not allow the visits of "Kolyada," a girl, dressed in white, who, like Santa, drove herself from house to house in Russia.

English children, like Americans, hang up their stockings, to find them filled with gifts in the morning. On Christmas Eve, English children dress warmly, take their lanterns and walk through the villages singing Christmas carols.

Bob Clark Heads Buff Basketeers For This Season

Robert Clark of Turkey, was elected captain of the 1932 West Texas Buffalo basketball team at a meeting of lettermen Monday afternoon.

Clark has played two years on the Buffalo team and has the coming season, as well as the 1933 season of eligibility but he is due to graduate with the June class of '32.

Last year Clark was named on the second all-T. I. A. A. basketball team and was considered one of the outstanding guards of the Southwest in any conference.

Clark has been quarterback on the football team for three years. He is popular with the student body as well as the basketball men and is one of the best students in school.

Sunny Hill News

Since the snow and rain of the previous week the roads in this community have been rather bad, but we appreciated the moisture. The Christmas program is to be given Wednesday night, Dec. 23rd. This program is to be different from the usual hilarity which Santa always brings with him and the scenes are to be typical of the time when Christ was born.

The birthday party given at the teacherage Friday night in honor of Mrs. I. H. Hollabaugh and Ernest Duncan was very much a success. Refreshments of sandwiches, cakes and punch were served to about forty guests.

Miss Stokes of Plainview was the honoree of a party given at the home of Miss Leona Dowdy Tuesday night of this week.

P. T. A. will not meet this Friday night. The date of the next meeting will be announced in this column.

H. H. Groom and family of the

Rusk community are moving to their new home north of Canyon this week. We regret to have them move from among us. Sunny Hill loses two of its students with their moving.

State School inspector, P. L. Stone, and Judge Orton visited the school Friday. Mr. Stone recommended substantial aid for the school this year.

Sunday school was fairly well attended last Sunday. The officers who were elected will assume their duties the first Sunday of the new year. Joe Russell was elected as the superintendent, Mr. Roby, assistant superintendent, Bertha Sykes, secretary and treasurer, Mrs. Sykes, pianist, and Ernest Duncan song leader.

Mr. and Mrs. Rex Roby were dinner guests in the Otto Lehnick home Sunday.

Mr. and Mrs. Lee Russell and family visited Mr. and Mrs. Joe Russell Sunday.

Howdy, you all.

Folks, you know this is going to be a great Christmas. I went to Amarillo and saw everything from dolls that cry to goats that smell, and every once in a while Ernie Wiggins would pipe, "Papa buy me one."

I think he wanted that new kind of a rattle they've got out, one that you can chew and rattle too. One of the clerks wanted to sell me a shaving mug. Now what would I do with one of them things. That clerk had so many brains that if they were put in a nut shell, they'd rattle like coppers in a tin box.

WHY SCHOOLS COST

In reflecting on increased school costs in recent years consideration should be given to other items besides the decreased purchasing power of the dollar and the increased school enrollment. These and similar items do not tell the whole story.

Our schools have become veritable "shock absorbers" in that they have been forced to assume many activities far remote from the early conception of school functions.

They have developed into sensitive instruments recording our social and economic tendencies, accurately reflecting the peoples' changing habits, tastes and needs. Step by step they have added to their scholastic labors varying functions, a partial enumeration of which will serve to illustrate the part they play in our everyday lives.

The schools responded with recreational facilities when these were found necessary as a vent for the excess of youthful energy and leisure. When adults courted similar privileges, school community centers came into existence.

The moral development of youth being everybody's concern, the schools, therefore, must supply character training, teach ethics and make possible moral instruction.

It is emphasized that discipline has disappeared from the home, so the schools are turned to for fostering of respect for law and order. Where physical welfare is neglected, the schools must safeguard health by assuming medical supervision of the pupils; since many short comings are traceable to defective teeth, schools must have dental clinics.

There is a wide variety of talent amongst pupils, therefore the schools must attempt individual instruction; they must discover and satisfy individual inclinations and interests. This has resulted in the Junior High School. A school of one thousand children touches five hundred homes at their most sensitive point, hence each child must be schooled as if he were the sole object of education. Childhood's personal problems, too, must be confronted, hence the establishment of the Advisory System. Where the homes are reluctant to cooperate with the schools, it has necessitated the establishment of the Visiting or Home Teacher Department.

Boys and girls must be prepared for gainful occupations, hence Vocational Training. Girls are seldom taught sewing and cooking in the home, so the schools provide a Domestic Arts Department. Where boys must be kept close to the farm, Agriculture must be taught. As high school pupils vary in personal choice of college, admission requirements of diverse institutions have to be met. The schools are required not only to give intensive training to prepare pupils for their colleges but at the same time give general training for those planning otherwise.

Methods of instruction and subject matter are constantly changing, making it imperative for instructors and school executives to devote a goodly portion of their out-of-school time to study, to keep abreast of these changes.

A multiplicity of special weeks have become a part of the school program, such as Safety First Week, Fire Prevention Week, Accident Prevention Week, Thrift Week, Cleanup Week, all of which, with many others, are commendable.

Yes, our schools have become "shock absorbers" in the effort to stabilize thought, conduct and action. If this bulging and complex program has increased school costs and become an added burden to the taxpayer, the greater weight has fallen on the school executive and Board of Education. It is not a nine or ten months' job, as popularly supposed; it is a perpetual labor.

You have got to tell 'em if you want to sell 'em! ADVERTISE!!

Panhandle Hands Canyon First Defeat of Year

The Eagles journeyed to Panhandle Saturday but came back without the desired scalp on their belt. Panhandle won 33-29. The Eagles are undaunted, however, and will attempt to redress the wrong Tuesday night on their own floor.

At the end of the first half the Eagles held a lead of 17 to 13. The unexcelled playing of the Canyon forwards accounted for this lead, but the Panhandle lads came back in the second half to even the count 27 to 27. The extra period to play off the tie left the Eagles on the small end of a score.

"Red" Hardin was tied by Stone of Panhandle for high point, 13 and 13.

A SANTA LETTER

Dear Santa:
My mama told me she thought I was a good guy and so maybe you'd bring me sumpen for Christmas. I'd like to have a few more things than I'll get, a kiddie-kar, or maybe if'n you beleeve I'm big enuff, a tricycle, an' lots of candy and nuts and, oh yeah, I nearly forgot, a nice box of tiddeley-winks a choo-choo engine with all the cars an' some tracks, cause a choo-choo engine don't help nobody what don't got a track, an' some buildin' blocks, and some A-B-C's and I guess that'll do for this time.

Yours very truly,

Wayne Tucker.

P. S.: Pa wants a deck of cards to play solitary with.

No one has ever discovered why rough roads are always the longest.

It's hard to be satisfied with the old car when a neighbor buys a new one.

Season Tickets For Basketball Season for Sale

Season tickets for the Eagles' home basketball games are now on sale. Adult tickets go for \$1.50 or 21 cents per game, and student tickets at \$1.00 or 14 cents per game. Seven games are scheduled, five of which are double headers, with both girls' and boys' teams playing. It is probable that more games will be scheduled. At the present, Panhandle, Hereford, Tulsa, Friona, Pampa, Amarillo, and Happy are marked up.

Everybody in Canyon, who is backing the Eagles should buy one of these tickets. The sale of these tickets not only helps the Eagles but helps the buyer as he is getting standard merchandise at lower rates.

Your work determines your associates and your economic status. Socially and economically work is the most important thing in life. All success centers around happiness, and most happiness comes through work.

It is the ultimate aim of every one of us to be happy; thus the choice of our future is doubly important.

We as high school students are at the stage when the preparation for the work of our choice should begin. How much bigger are our chances for success and reaching the top if we have our high school years directed to a definite goal.

CHURCH OF CHRIST

We are interested only in teaching the Bible and exhorting men and women to obey Christ. A warm welcome will always greet you at the service of the church.

Brethren, let us take a decided stand for the truth without fear or favor. No one should draw back from serving Christ. The harvest is truly great and laborers are few. Are you faithful in your stewardship? The people need to hear the warning voice, and come out of the Babel of denominationalism. You can't go wrong walking in the Lord's way. Jer. 6-16.

You must not be weary in well-doing, for we are engaged in an enterprise that is most noble, conversion of souls. Let us give our very best. May the Lord help, and may his followers be what they profess, Christians, in deed and truth.

Strangers and visitors always welcome. Come Sunday.

Home Economics Dept. Is Active; Gets Hard Work

One of the most popular majors and fields for careers for girls in W. T. is Home Economics. The Home Ec. club was organized in 1913 as the first departmental club organization in the W. T. S. T. C. The motto chosen was "Love of home and what home stands for converts the drudgery of daily routine into a high order of social service." Regular meetings are held twice a month. The girls are taught leadership and are trained to be active and efficient members of the home and community life. The program for the year is to be based on the preparation for a well rounded life.

The officers of the Home Ec. club for this year are: Irma Campbell, president; Fannie Sue Brasuel, vice-president; Ethlyn Wolford, secretary; and Ruby Thomas, treasurer.

The Zeta Chapter of Kappa Omicron Phi was installed in the W. T. S. T. C. in May, 1927. The purpose of this national organization is to further the interest of Home Economics in four-year colleges and to develop intellectual, spiritual, and aesthetic poise in college women. Eligibility for membership is based upon scholarship, personality, and leadership. This fall the Chapter had seven active members. Bernice Bessie is president; Dorothy Gore, vice-president; Fannie Sue Brasuel, secretary; Irma Campbell, treasurer; and Jean Day, annual representative.

Since 1926 the club has maintained a loan fund for the benefit of junior and senior girls majoring in Home Economics. Each year a definite contribution is made to it. Different ways for raising the money is employed; sometimes the club serves luncheons. The club

is affiliated with the Texas State Home Economics Association and the National State Home Economics Association.

Plans are being made for the maintaining of the practice house again this winter. It is conducted for the students who major in Home Economics.

An important part of the department is the college cafeteria located in the Education building, and managed by Miss Holmes. It renders quite a service serving appetizing and inexpensive meals. It has become a popular place for eating.

The first entertainment given by the club was a tea for the freshman girls majoring in Home Economics. Next was a Halloween party. Recently a party was given for the Home Ec. club girls and the college farm boys. Various other forms of other socials have been given. A luncheon in honor of Dean Sturtevant of Columbia University was prepared and served by the club. The club was wide awake during the Teachers' convention. With the help of the Kappa Omicron Phi the two served two teas, one for the art section of the T. S. T. A. and the other for the dean's section.

At the teachers' convention Miss Northington spoke on "Changes and Emphasis in Home Economics in teachers institutions due to the present economic condition."

CLASSIFIED ADVERTISING

Classified or "Want" advertising is as it is often termed, advertising to supply a definite want. Like all advertising, its purpose is to bring buyer and seller together. But the general public has learned the fact that classified advertising not only fulfills a definite want, but contains such a great variety of offerings that it pays to read all these little messages regularly.

There are no limitations to classified advertising. For this department in newspapers has become the great clearing house of human desires. Real estate, automobiles, machinery, livestock, jewelry, household goods, store fixtures, office supplies, stocks, bonds, building material, musical instruments, poultry supplies, boats, stores, business, etc., are bought and sold; while apartments, houses, furnished rooms, camp and island cottages, and business places are rented and all sorts of positions are filled through the "help" or situation ads.

Lost articles, lost animals, and even relatives are restored and county estates running to hundreds of thousands of dollars have been sold through classified advertising. A classified advertisement costing less than one dollar has often secured a salesman who has earned thousands of dollars for himself as well as for the company represented. There are now many large corporations throughout the nation who do a business amounting to more than a million dollars a year through agents secured by classified advertising.

Concerns and individuals who are awake to the value of the "short cut" to results promptly come forward with their advertisements. "The more you tell, the quicker

you sell" is an apt slogan and advertisers are sincerely advised to word their advertisements with the object advertised as the first word or words of their copy and also where it is possible feature the price of anything they offer for sale.

When our "Want-ad" representatives call on you, listen to their proposition. It is conceded by authorities who have made a life study of classified advertising that it has a stronger pulling power than any other class of publicity.

Read over the advertisements this week—and every week for that matter—and then make up your mind to patronize those progressive merchants and business houses who have the progressive spirit to seek your favor.

WHISPERINGS

Psst, Psst, Psst! Have you—? You don't say! Well, Well! And away goes another reputation for life long honesty, decency, right living.

There isn't a more sinister, vicious, evil, advantage-taking method of spreading derogatory propaganda than through the Whispering Grapevine Route.

At times it rolls along apparently harmless as idle gossip. Then again as a thistle it turns over and over, gathering more rubbish through malignant contacts with venomous subjects which cling to it, until finally it becomes a giant prairie roller, a composit o all that is filthy and putrid in the community.

Fanned by the gale, the fastest runner cannot keep up with it.

White-livered, black and white striped animals, who in order to further their own interests, or who delight in besmirching decent characters to the aroma of their own, start their whisperings by planting them deliberately at vulnerable peddling points, breathe the breath of life into their monsters, and then all the imps of hell lash them on.

The old-time alleged powers of witchcraft were inconsequential, compared to the possibilities for character slaying, embodied in the witchery of Dame Rumor, and yet today there are no stocks to fasten these vicious Rumor purveyors in, as objects of public contempt; no lashing posts at which to scourge them; no stakes at which to burn them.

Suicide, murders, bank failures, bankruptcies, home, church and school wrecks are spectacles which rattle at the Gate of Dame Rumor. Politicians work her overtime and even in Washington's day she was so active, he declared he'd rather fight a whole army than one vicious rumor.

The worst enemy to prosperity, the outstanding enemy of progress, the foe of harmony, the greatest enemy of happiness, and the biggest liar in the universe, Dame Rumor is a wanton who refuses to come out and fight in the open.

She is sneaking, cowardly, snake-like; an object for fear and abhorrence, that should be crushed, squelched, choked, and hurled back into the depths of the bottomless pit from which she dared to emerge, because of the satanic ef-

forts of her masters.—Leader, Pipestone, Minnesota.

CITATION BY PUBLICATION THE STATE OF TEXAS.

To the Sheriff or any Constable of Randall County, Greeting: You are hereby commanded to summon Maud McMillen, who is a non-resident of the State of Texas and absent from said State, to be and appear before the honorable 47th District Court of Randall County, Texas, at the next regular term thereof, to be begun and holden at the courthouse in Canyon, Texas, on the first Monday in January, A. D. 1932, same being the 4th day of January, A. D. 1932, then and there to answer a petition filed in said court on the 28th day of November, A. D. 1931, the file number of which suit is 1319, in which suit Arbey E. McMillen is plaintiff, and Maud McMillen is defendant, the nature of plaintiff's cause of action being in substance as follows, to-wit:

That plaintiff has been a bona-fide inhabitant of the State of Texas for one year and a bona-fide inhabitant of Randall County, Texas, for six months next preceding the filing of his petition herein; that plaintiff and defendant were married in Indianapolis, Indiana, about the 19th day of October, 1928, and lived together until about the 25th day of May, 1929, during which period plaintiff herein conducted himself properly, and did not by any fault of his own cause or contribute to any of the actions of defendant hereinafter set out. Plaintiff alleges that defendant was of a very jealous disposition and possessed an ungovernable temper; that she constantly nagged plaintiff and found fault with his method of living and his station in life; that defendant, without any cause or provocation whatsoever accused plaintiff of flirting with a married woman; that on frequent occasions, both in public and in private, defendant would curse and abuse plaintiff, calling him a liar, greatly humiliating and embarrassing plaintiff, causing plaintiff to be extremely nervous; that on one occasion during said period of marriage, defendant exhibited a pistol and threatened to kill plaintiff, putting plaintiff in fear of death or serious bodily injury, since which time plaintiff and defendant have not lived together as husband and wife. Plaintiff alleges that such conduct on the part of defendant constitutes such excess, cruel treatment and outrages towards plaintiff as to render the further living together of plaintiff and defendant absolutely insupportable. Plaintiff prays for a decree of absolute divorce.

You are commanded to summon such defendant, and to serve this citation by making publication of this citation once each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county; but if there be no newspaper in your county, then in any newspaper in the next county where a newspaper is published.

Herein fail not but have you before said court on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness Berl E. Mayfield, Clerk of the District Court of Randall County, Texas.

Given under my hand and the seal of said court, at office in the City of Canyon, Randall County, Texas, this 28th day of November, A. D. 1931.

"HELLO...
YES THIS
IS SANTA"

"What is it, Mary-Ann, you say you need a new house to live in. Well now Mary-Ann, I haven't any new homes in my warehouse this year, but I'll tell you what to do. Tell daddy to go down to Burrow Lumber Co. and get Mr. Burrow to help him make plans and show him how he can make his money go a long way.

Tell him Santa said there isn't any way he could spend his money better than to build a new home or remodel your old one, because folks are just so much happier in warm comfortable homes.

Don't lock me out Christmas Eve. Goodbye, little one."

Syncro-Mesh Shift and Free Wheeling

The new Chevrolet Six combines the advantages of two inventions... Syncro-Mesh and Free Wheeling... to assure quick, quiet, easy gear-shifting and positive control of the car under every driving condition

One of the biggest driving thrills in modern motoring is now available at one of the very lowest prices in the automobile market. Silent Syncro-Mesh gear-shifting is combined with simplified Free Wheeling in the new and finer Chevrolet Six!

No other car offers this double-feature for so little money. Syncro-Mesh is recognized as the most advanced type of transmission ever developed by engineering science. Free Wheeling is that new, up-to-date sensation which adds so much to the zest of driving. The two make a matchless combination! They bring about an entirely new kind of driving

ease and car control, far beyond anything you have ever enjoyed before. They give you quick, quiet, easy shifting and complete mastery of the car, under all conditions of road and traffic. They enable you to do things in driving that are impossible to do in a car without both these features.

Then, along with these two big motor-ing thrills—Chevrolet offers you 60-horse-power "six" performance, higher speed, faster acceleration, greater smoothness, smarter Fisher bodies, matchless economy, and a first cost among the lowest in the motor car market. Certainly, it's the great American value for 1932!

LIGHT UP FOR CHRISTMAS

College Facts

(Continued from page one)

for children, and adults are in keeping with the times. Mr. Wallace R. Clark, head of the department will gladly answer inquiries.

Attendance Increased

During the fall term the West Texas State Teachers College has had more students than during the fall term of 1930. Students will not give up their college work because of hard times, and Texas parents are not willing to have the generation just growing up carry the burdens of a depression which they did not bring on.

The winter term will open December 30, and it is expected that there will be many new students. Boys and girls can attend the winter session for \$96.00. This will cover room, board, matriculation fee, optional fee, medical service, trust fund, laboratory fees, basal text books, laundry and incidentals. Many students do light-housekeeping, and receive part of their supplies from home, thus reducing their expense even more.

Methodist Lead

Out of the students who were enrolled in College early in October, 1931, all but 25 had definite church preferences. The Methodists led with 276, and the Baptists were close behind with 216 members.

The Church of Christ, the Presbyterian and Christian churches follow in the order named, but there were eight other churches to which students belong. All who attend college at Canyon are urged to attend church and Sunday School.

Religious Atmosphere

Canyon has always been known

for its positive and wholesome religious atmosphere. Much of this is due to the work of the members of the faculty of the West Texas State Teachers College. Dr. J. A. Hill, the president, is a leader of statewide recognition in the church of his choice. Dean R. P. Jarrett has been sent as a regional delegate to the National meeting of his church, and Registrar D. A. Shirley is one of the best known men in northwest Texas in his denomination. All these are officers in churches of Canyon.

Practically every member of the faculty is a member of a church, and for twenty-one years the churches and Sunday schools of the town have drawn upon the college for teachers, lay leaders and other church workers. Many young peoples conventions have been held at the college. Training schools are held each year to help young people learn how to do effective work in churches. There is a thriving Y. W. C. A. under the direction of the college. They are federations of young Christian workers.

The latest plan for the education of young people for Christian leadership has taken the shape of an Inter-church Council, with Professor S. H. Condon as director. Through this organization young men and women will have an opportunity to take carefully worked out courses in Bible study, Sunday school and church work and community living. This new plan grew out of a movement started by Superintendent Irby Carruth of the Canyon Public Schools, W. A. Warren, merchant, and others who assisted them. It is the hope of the founders that this new organization will serve the young

people, help them grow spiritually and do without too much duplication of effort. Probably 300 college students will take courses under this plan.

15,000 Have Enrolled

The West Texas State Teachers College was opened in 1910. Since that time, more than 15,000 students have attended college there.

That they like the college and its faculty is evident, for the average length of attendance by each student was two and one quarter sessions or more than twenty months. Many who came while the new school was a junior college returned when it became a senior college and completed the work for their degrees.

The Graduate School

The graduate school of the West Texas State Teachers College was opened the summer of 1931. Sixty-two students were enrolled who already held their bachelor's degrees. Of this number 41 were working toward their master's degrees. They came from ten colleges, besides that at Canyon. Practically all of them chose subjects for their theses that have practical bearing upon the work they are doing each day.

Those not working for the advanced degree found an opportunity to pursue courses in line with their special interests.

Dean R. P. Jarrett is chairman of the Graduate Council. The summer session of the Graduate School will open June 6, 1932.

Entertainment Offered

Lyceums, programs, lectures, music and other types of entertainment are furnished by the West Texas State Teachers College to schools and other community organizations. These are sent out on a cost basis, as a part of the services rendered by the college. Members of the faculty frequently give addresses before service clubs, study clubs, parent teacher associations, county school rallies and similar meetings. Those desiring help with such community undertakings should write the bureau of public service, Canyon, Texas.

The Outing Club

One of the unique clubs of the College at Canyon is known as the Palo Duro Outing Club. Sponsored by Dr. Albert Barnett and S. H. Condon, it has for its purpose providing good times for those who like to seek their recreation out of doors. The club has an outing once each week. Those who go range in age from toddlers to the age of 60. The Canyon, the College Farm, the Gordon Country club and other nearby places are chosen for meetings. Games, informal talks on geology, astronomy, flowers, animals, together with singing and hikes are favorite activities. Each person carries his own lunch; the club furnishes a good drink, sometimes cold, sometimes hot. Those who go are learning to enjoy themselves in doing things they can continue to do after they leave college.

Prepare for Professions

Because the West Texas State Teachers College at Canyon is the only senior college in so large a territory, it serves young men and women who are preparing to study law or medicine or engineering, or any one of the many other things. Special courses are not offered for these people, but they are carefully advised so that they will enroll for courses which will lead in the direction they have planned. When they do not know how to plan their own courses, college administrators work with them, so that they need waste no time. A large number of men and women, successful in engineering, law, medicine and other lines have done part of their college work here. The Dean of Men, Mr. Harris M. Cook, frequently assists young men with these problems.

Finding Positions

Young people who are preparing to teach, and who do their college work at the West Texas State Teachers College are given every legitimate assistance in securing positions. A committee keeps constantly in touch with superintendents and school boards, helping them to secure the kind of teachers they want, and at the same time helping well prepared teachers to find places in which they can work efficiently and happily.

Schools having vacancies occurring during the holidays are invited to communicate with the Teacher Placement Committee, of the College at Canyon. They will receive prompt service.

Plant of the College

The plant of the West Texas State Teachers College at Canyon consists of a campus of 70 acres, and the college farm of 210 acres. The buildings and land are valued at \$1,600,000 and the equipment will bring the value to \$200,000 more.

The campus is in the east end of the city of Canyon and within twenty-five minutes drive over a paved road from the city of Amarillo.

The administration building of the college is the largest and best constructed single school building owned by the State of Texas.

The education building, dedicated in 1928, is pronounced the best for its purpose of any such building in the entire south.

Outstanding Faculty

Four presidents of Texas Colleges have been chosen from the faculty of the West Texas State

Teachers College. J. A. Hill was promoted from the headship of the department of history to the presidency in 1918. Dr. R. B. Cousins, first president, is now president of the College of Arts and Industries at Kingsville. H. W. Morelock, once head of the English department is now president at Sul Ross; R. L. Marquis, former head of the Biology department, is now president of the Teachers College at Denton. A prominent school man said last year "Canyon has on her faculty the kind of material needed for the presidency of colleges." The faculty is sometimes called "Joe Hill's hand picked faculty."

Move Here for School

Many people move to Canyon each year so that their children can attend college. One of the reasons that this plan is so satisfactory is that the Canyon Public Schools are of such high grade. Many visitors say that the public schools here are among the best in Texas, and are certainly unusual for a town of the size of this one.

Another large group of students at the West Texas State Teachers College drive each day from their homes in Amarillo, Happy, and other nearby cities. More than 100 drove each day from Amarillo last summer.

in Canyon this year.

Every car and truck owner, whose car or truck is registered in Randall county has an opportunity at winning one of the many prizes offered by Canyon merchants.

A car or truck license number will be drawn for every prize offered and the number placed in the store offering a prize. The owner of a car or some member of his family must hunt until the car number is located and then claim the prize. The car owner is the winner of the prize in the store where the number corresponding to his license number is to be found.

The numbers will first be displayed in the stores about 7 o'clock Monday night. Unless the numbers are claimed by 8:15 o'clock, other numbers will be substituted for those not already claimed. Almost every line of business is represented in this prize offering group and practically every business firm in Canyon will participate in this occasion. The prizes range in value from \$1.00 to \$10.00 and some stores are offering as many as three prizes.

Fred E. Wortham, Chamber of Commerce Secretary, stated this morning that the prize list for Down Town Night, although incomplete, totaled in value almost \$100, and prizes are expected to be added.

Prizes for Monday night, range in value from \$1.00 to \$10.00, and include, 2 pairs shoes, fancy picture frame, man's shirt, ladies hose, tie and socks, 1 bushel of apples, basket groceries, 1 pair double blankets, order of meats, basket of groceries, 5 pound box chocolates, silk scarf, ladies purse, boys riding pants, ladies gift toilet set, statuary, running board step plates for car, a drain and refill of oil, silverware, fancy rug, box of oranges, crystal necklace, grease job for car, \$1.50 box candy, \$1.00 in dry cleaning, 1 sack of flour and bucket east Texas syrup, basket of groceries and meats and many other items.
